

PRESS RELEASE

e5 Solutions Group, the leading experts for SAP Treasury in North America, joins the Hanse Orga Group

Continues the execution of the Group's strategy to build the leading global FinTech company serving the full financial automation value chain.

Hamburg, Germany, May 15, 2017 – Hanse Orga Group, the market leader in financial automation software, today announces that it has reached agreement with e5 Solutions Group (e5), the North America market leader for implementation and support services as well as software add-ons for SAP's Treasury Applications, to join forces and become part of Hanse Orga Group.

e5 delivers best-in-class services and software add-ons that enable and augment SAP standard treasury functionality to enterprise customers in North America. The firm's focus on treasury management, in combination with Hanse Orga Group's existing expertise in delivering international solutions to clients for order-to-cash and procure-to-pay business requirements, will create a unique FinTech company which is able to serve customers along the whole financial automation value chain within SAP. Solutions can be designed that will incorporate non-SAP enterprise resource planning technology which solves many of today's global business problems of fragmented technology landscapes and processes.

"e5's deep understanding of treasury are complementary to the existing add-ons we provide," said Sven Lindemann, CEO of Hanse Orga Group. "Considering e5's strong footprint in North America, we will be the market leader in Europe and the North America with a unique software solution and service offering around cash flows and payments along the whole financial automation value chain," he continued.

Established in 2001, e5 works with some of the largest organizations in North America and counts many Fortune 100 companies as customers. The founding partners of e5 will remain shareholders in the new enterprise and the current e5 leadership team will continue to lead the development and management of e5 as part of the Hanse Orga Group.

Jaime Ryan, e5 Managing Principal said: "Our partnership makes perfect sense as we are creating the world's largest SAP specialized treasury implementation partner. We share a similar vision, we have a similar approach to serving our clients and we offer complementary products and services. These

synergies and our shared values will benefit our customers globally and in the process generate stronger, long term growth for the business."

Hanse Orga Group has a long tradition of automating and managing global cash flows and payments. Since last year, Hanse Orga Group has been backed by the private equity growth investor, Waterland, which supports Hanse Orga Group's ambition to become the leading FinTech company in the financial automation space. e5 joining the Group is a continuation of this strategy and follows the acquisition of SOPLEX Consult, a credit and receivables management solutions provider, in November 2016 and Dolphin, a leading provider of process automation and data management solutions for SAP customers, in May 2017.

About Hanse Orga Group

With over 450 employees in 13 locations globally, Hanse Orga Group supports over 1,900 business customers today with various products and solutions. The company was established in 1984 and today pursues a dual product strategy, offering SAP-embedded solutions as well as web-based products which can be linked to different Enterprise Resource Planning (ERP) systems. The solutions cover central segments such as order-to-cash, procure-to-pay, treasury, working capital management as well as data volume management solutions. With its *FS² Payments* solution alone, one of the company's products, customers process over 1.2 billion transactions annually with a volume of over 450 billion euros. In 2015 and 2016 the SAP-embedded software family won the international TMI Award for Innovation & Excellence for "Best ERP Based Software". Hanse Orga Group is also active as a consultant in the field of SAP Treasury. For further information please visit www.hanseorga-group.com
